Chief Secy)

There is no doubt that Dr Rule is a very good dental Surgeon & that the institution of a permanent dental side in the V. Hospital will be of much benefit. On the other hand there is considerable force in the view of the Senior Surgeon that the

Serial No.

work done by Dr Rule in the hospital is of an elementary & simple character which can be done by any general medical practitioner, & that it is only if Dr Rule does the higher classes of dental work in the hospital there will be real ~~go~~ advantage in the arrangement.

10. As regards the future it would be desirable to post an Asst Surgeon permanently for dental work under Dr Rule, so as to relieve him of the simpler work & it should be a condition of the engagement that Dr Rule should perform the higher technical classes of dental work in the hospital so as to benefit poor patients & train the Asst Surgeon &c. In that case Dr Rule may be permitted to select & buy the necessary outfit during his stay in America.

Dentistry is as much an art as a Science & while the latter is more or less understood & practised by the General Practitioner, the former requires special training. The relief commonly required can be afforded by the G.P. & our medical men are trained in the art of dentistry, it seems to me that there will be no scope for the practice of it in an Hospital. It is an Expensive luxury in case of unless first it prepares to spend a considerable sum of money in providing false teeth for people who require them or getting bad ones filled with Gold, it will serve no useful purpose to get one of our medical officers trained in the art. I am of opinion that the Art should be left to the practised by the Private Practitioner

The Hospitals & Dispensaries continue themselves to give such relief as can be afforded by the ordinary medical men. In the light of this view the present proposal does not commend itself to me. Unless I am mistaken the idea was attempted at the General Hospital Madras & have a Dental dept - which proved the a failure. It would be interesting to know something more about this.

Dr. Rule's engagement need not be extended I think.

Temporary

FINAL NOTE BY THE ~~FIRST~~ MEMBER OF COUNCIL.

SUBJECT: .....

48) Question of deputing Mr. V.V. Monteiro to England for training in Dentistry.

T 48) Under G. O. No. 2524-6/Med. 50-17-4 dated the 8th November, 1917, a Department of Dentistry was opened in the Victoria Hospital, Bangalore, as a tentative measure and Dr. W.F. Rule, D.D.S., was placed in charge of it temporarily for one year with effect from the 4th December, 1917, his remuneration being fixed at Rs.250 a month, for three hours' attendance in the Hospital on two days every week.

50) 2. In November last the Senior Surgeon was requested to ascertain and report to Government the terms on which Dr. Rule would accept a re-engagement if the Department of Dental Surgery in the Victoria Hospital was continued. The Senior Surgeon, in his letter dated 27th December, 1918, reported that Dr. Rule proposed the following terms:-

U

(1) A three year agreement

(2) Same privileges as those of the permanent staff in the matter of leave etc.

(3) Pay Rs 375/- per month for bi-weekly attendance of 2½ hours each or Rs500/- for tri-weekly attendance and

(4) Equipment to be supplied by Government.

—do— 51) 3. Before orders could be passed in the matter Dr. Rule absented himself from 1st November, 1918, without leave and he also intimated that he would not be able to take charge of the Dental Department before 1st July, 1919.

52) 4. In view of Dr. Rule's absence from duty before the expiry of the term of his contract, the unsatisfactory nature of his work in the Hospital and the exorbitant terms demanded by him, it was considered desirable to terminate his contract and send a promising

young graduate in Medicine early to Europe or America to be trained in Dentistry. The Senior Surgeon, who was consulted in the matter suggested that Mr. V.V. Monteiro of Shimoga, who has just passed the M.B.B.S. examination of the Bombay University with credit, might be granted a scholarship and sent to England for training in the London Medical School.

53) 5. I supported this recommendation and the Dewan and the First Member of Council also agreed to it. The Second Member, however, thought that there was no need for a Department of Dentistry in any of the Hospitals as it would not be of much use to the ordinary people resorting to them for medical aid. The matter was therefore considered in Council, and they are, in opinion, the Second Member dissenting, that, in order to make our large hospitals self-contained a Department of Dentistry should be opened ; that, though it may not be possible to provide costly medical aid, such a Department will be useful for treating ordinary dental ailments and that, at any rate, it is necessary to have a ~~xxx~~ medical officer trained in Dentistry in the service, to take up the work of lecturing on this subject in the University when the Faculty of Medicine is established The Council also approve of the selection of Mr. Monteiro for this training.

54) 6. The recommendations of the Council may be approved. Dr. Rule will be informed that his services are no longer required by Government.

14th March, 1919.

Member of Council.

Serial No.

to this candidate and I should have been able to point this out if I had been consulted at an earlier stage. Of the 4 Scholarships 2. Damodar Das Scholarships for the year 1918-19 have been awarded. The addition to this as soon as the Interim Scholarships were cancelled one Scholarship has been awarded to Mr. Ramdeo Chamaria & there are also two other Scholarships awarded to Mr. Abdul Jabbar & Mr. A. Subhan Rao. Thus no scholarships are available. The only solution of the difficulty seems to be either to treat the scholarship as a deputation from the Dept or take the scholarship against next year's scholarships. The chief objection to this course is that in the new almanac

Mr Ismail Hussain has proposed his appt. for Mr Mendera as a Madras graduate. I believe his proposal as Mr Mendis was given a scholarship for himself in Madras. I am not specially in appointing him as a Madras graduate and sending him to England as deputation. The whole case is to be considered a special scholarship for him. The latter may perhaps be less costly. The Financial Secretary might be consulted.

Yours sincerely with compliments

No. G.C.261
Encls. 2

Office of the Senior Surgeon, Mysore Govt.

Dated Bangalore, 18th November 1918 .

From

Rajakarya Pravina Rao Bahadur
T. V. Armugam Mudaliar, Esq., M.B., C.M.
Senior Surgeon with the Government of
H. H. the Maharaja of Mysore, Bangalore.

To

The Chief Secretary to the Government of
H. H. the Maharaja of Mysore,
Department, Bangalore

Sir,

With reference to Government order No.2524-6-Med.50-17-4, dated 8th November 1917, establishing a Dental Department in the Victoria Hospital and appointing Dr.W. F. Rule to the charge of the section for one year, I have the honor to state that the Dental Department was opened for work on the 4th of December 1917.

In this connection, I beg to submit also a representation made to Government by the Dental Surgeon in June last, reporting on the work done by him and suggesting that he would quote his terms for further service. Copy of the Medical Officer's letter forwarding the representation is also enclosed. As it was too early to approach Government with proposals for revision of terms or continuance of the work on the results of less than 6 months' work, I requested the Medical Officer to report on the work done till end of September 1918.

It will be seen from the copy of statement appended, that for 71 sittings for the ten months ending 30th September 1918, Dr. Rule attended on 883 cases, or an average of 12.4 cases per day he worked. It may also be seen that while the number of cases treated till the end of May 1918 was 703, the number treated since then up to end of September was only 180. Again, of the total number of 883 cases, 492 were cases of loose and carious teeth, 107 cases that were merely seen and

Subject.

Requests orders regarding the continuance of the Dental Department in the Victoria Hospital, Bangalore.

advised (but not treated in the hospital), and the remaining 284 cases of pyorrhoea, gum boil, etc., ~~xii~~ and these cases were mostly those that required extraction, scaling in a few cases, lancetting and painting with Tincture Iodine, which could be done by any Medical Officer who has undergone a University course in Medicine and Surgery.

I agree with the Medical Officer, Victoria Hospital, that there is no necessity to increase the number of the Dental Surgeon's visits. ~~Nor xx~~ The remuneration sanctioned at present, viz., Rs.250/- per month for bi-weekly visits, is very fair and does not seem to need any increase. But Dr.Rule is not willing to serve on that remuneration. Under the circumstances I submit the matter for the orders of Government.

On account of the shortage of hands it was not possible to depute any Sub Assistant Surgeon for learning work in the Dental Department. But sub Assistant Surgeons on the staff of the hospital have been seeing cases treated in the Dental Department whenever they could be spared.

I have the honor to be,

Sir,

Your most obedient servant,

Personal Assistant,
For Senior Surgeon.
Absent from station.

Letter No.1646, dated 28th June 1918, from the Medical Officer, Victoria Hospital, to the Senior Surgeon.

In forwarding a letter from Dentist Dr.W.F.Rule, I have the honor to state that the work done by Dr. Rule is mostly extraction of teeth, as per statement in the margin.

Extraction 404
Scaling 107
Other cases 192
Total 703

I have not seen any special treatment given to pyorrhoea cases except painting the gums with Tincture Iodine and scaling in some cases. But the science and art of Dentistry do not consist in extraction of teeth and scaling. Any medical man can do this without a dentist.

Saving slightly carious teeth by filling and crowning, and supplying artificial teeth for mastication where necessary, to the poor patients, form an important branch of Dentistry. At present our patients are denied the benefits of this branch for want of facilities.

If the poor patients are to be given the full benefit of Dental Science, all these requirements should be met. Unless we have a full-time officer, I cannot see how we can carry out the work.

During the past 7 months no Sub Assistant Surgeon was available to attend this department and to learn work. We were short of hands even to carry out the work of the hospital If a full course of training is given in dentistry, then it will be worth while to depute an Assistant Surgeon or a Sub Assistant Surgeon to attend his department with the view to learn the work. At present I do not see any necessity to increase his visits to three times a week as the work done is not very heavy. The average comes to about 15 patients for each day of his visit.

In my opinion it is very desirable that in the interest of the hospital one of our men should be trained in Dentistry without any loss of time. It would be cheaper and more efficient in the long run.

"C o p y"

For Senior Surgeon.

4 St.Marks Rd.,Bangalore,June 6,1918. 35

To, The Genl Secretary
The Government of Mysore,

Through the Senior Surgeon.
" M.O. I/c Victoria Hospital.

OFFICE OF THE SURGEON MYSORE 29. JUN 1918

The Dental Department in the Victoria Hospital has been in existence for six months.
When one stops to consider that a vast majority of the diseases of the body are the results of unclean mouths,one can not help thinking that the Dental Department is a step in the right direction.

Dr.Charles Mayo,one of the world's greatest surgeons,said that the next step in preventive medicine must come from the dental surgeon.
The people must be taught how to clean their teeth,to look after their mouths properly and that doing this means the prevention of many ills.

During the past six months over five hundred patients have been treated in the dental department and many patients have come for consultation,also advice.

The prevailing disease amongst the number treated is pyorrhoea. Many teeth had to be extracted as the result of this disease that by proper care might have been saved,provided the patient had known how to look after them.

Every patient,who presents himself for treatment is requested to obtain a tooth brush and a cleansing agent,if able;he is then instructed how to look after his mouth with the hope that he will tell his family to do likewise.

The Dental Surgeon regrets that during the past six months not a Sub-Ass't Surgeon has presented himself for training to do any kind of dental work.
As the Ass't Surgeon is the man who reaches the majority of people he of all men should know how to do the simple treatments for the relief of dental pain.

In the opinion of the Medical Officers of the Hospital the time allowed by the Dental Surgeon,viz.two days per week,is not enough and much better results would be accomplished if three mornings per week were given from 7-30 to 10 A.M.

The Dental Surgeon wishes to inform the Government that owing to his large private practice he can not carry on with the work,after his year is up,much as he would like to do so at the present rate of pay.

If the Government recognizes the desirability of the Dental Department and wishes it continued by the Dental Surgeon,he will be pleased to give his terms on request.

The Dental Surgeon wishes to express the grateful thanks of the many patients to His Highness the Maharaja and his Government for the relief afforded them also the Dental Surgeon wishes to thank His Highness and Government for the privilege of treating and teahh ing some of His people the Oral Hygiene Gospel.

1518.

Deptt., Bangalore.

Sir,

With reference to your letter No.G.9969-Med.62-18-2, dated 30th November 1918, I have the honor to state that Dr. Rule intimates that his terms for the future are,

(1) A three year agreement;

(2) Privileges, same as tjose of the permanent staff, as to leave, etc.

(3) Pay Rs.375 per month for bi-weekly attendance of 2½ hours each, 8 to 10-30 AM or Rs.500 for tri-weekly attendance, ditto.

(4) Equipment to be supplied by Government.

I further beg to report that he has acted on the advice of his physician (he says) by taking a change from 1st November, from which date he has not been attending. He requests that he may be granted privilege leave, a month's as in the case of officers on the permanent staff. This is not in accordance with rules. His employment was sanctioned for only one year. More-over, he intends to visit America and says he cannot take charge of the dental department before 1st July next. He further says that, if Government so desire he will select the necessary equipment himself. There is nothing extraordinary in the equipment of the dental department to require the personal selection by the dentist. The indent is dealt with in the Medical Stores in the usual way

I request the favor of orders on the continuance of

Office of the Senior Surgeon, Mysore Govt

Dated Bangalore, 21st January 1919.

No. G.6.418-2.

Dear Sir,

Your D. O. letter No.731-C.B., dated 17th instant, on the subject of sending one or two men for training in Dentistry.

Names. I would first suggest the name of Mr. V.V.Monteiro of Shimoga, who has just passed the M.B,B.S., Degree examination of the Bombay University, as a Mysore State scholar. He has had a very successful college career and, but for his illness soon after the examination, would have received the Fellowship of the Grant Medical College for his having shown proficiency in surgery. He has applied for a Foreign scholarship to enable him to study for dentistry. Of the Officers now in the service, Mr. C. Krishnaswami Rao, MB, BS. and Mr. S. Narayan Prasad, L.M.& S (Bom), have expressed their willingness to undergo training in Dentistry, if they are deputed by Government. Both are eligible, but Mr. Krishnaswami Rao's qualifications are higher.

Places. The Medical Council of England confers the Diploma or License in Dental Surgery (L.D.S.), and the Royal Dental Hospital, London, the Guy's Hospital, the London Hospital Dental Schools, are said to be high class Dental Schools where a sound training can be had. I therefore propose that the men to be selected, may be sent to England to obtain the L.D.S. qualification of the London Schools.

Time. Althpugh the course is, ordinarily, one of four years, after being registered as a Dental Student, yet those who have obtained the MB, BS, Degree here, which is a registerable qualification in the United Kingdom, can obtain the L.D.S. qualification by undergoing two years' Mechanical instruction, ~~side by side with the~~ Those with lower qualification (L.M.& S) will take 6 months or a year more, as they will first have to obtain the registrable qualification of L.R.C.P., or M.R.C.S. ~~Qualifi~~

Dated Bangalore, 4th February 1919.

No. G.C 41

Dear Sir,

With reference to your D.O. letter No.G.16221 of even date, I give below the information on the three points mentioned

(1) Facilities do exist in the United States of America for training in Dentistry.

(2) So far as my information goes, a course of four years in some and of three years in other American Universities is insisted upon. While in England, our M.B. B.S. candidates will get exemptions ~~in certain~~ from the obligation to undergo theoretical courses and can obtain the L.D.S. Diploma in two years.

(3) I consider that the training given in the London Medical Schools is more perfect and that it would be advisable to send our candidates to England, rather than to America.

Yours sincerely

C. S. Balasundaramier Esq., B.A.,

Chief Secretary to Government,
